STATE OF OUR PLATES

We took a look at ezCater's 2022 ordering data and noticed some fun and surprising trends – these nine states were some of the most interesting. How does your state do food for work?

Arizona

Viva los tacos! 🌮

Crunchy. Soft. Rolled. Fried. In Arizona, every good taco has its day (every day) with Arizonans racking up the most taco orders on ezCater.

Delaware

Taking comfort 🍲

Known for its slippery dumplings and scrapple, The First State is first in comfort food orders. Stay cozy, Delaware.

Maine

Loves a crowd 👥

Maine may not have a huge population, but Mainers sure know how to get together at work, boasting the largest average group size of 59.6 per order.

Massachusetts

Bowled over 🍝

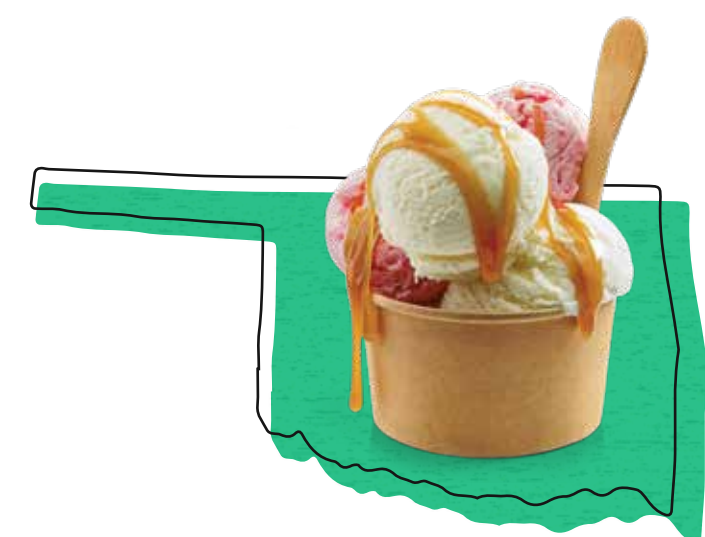

The Bay State thinks inside the bowl with the most orders for bowl-based meals. (And no, it's not all chowder.)

Michigan

Lunching large 🍴

The biggest ezCater order in 2022 hails from the state known for the biggest lakes. Because everything's bigger in...Michigan?

Oklahoma

Sweet tooth central 🍦

Where the peach cobbler goes sweepin' down the plain. Okies love their treats, earning the sweet spot on ezCater for most dessert orders.

South Carolina

The Sandwich State 🥪

SC is Sandwich Central. From subs and clubs to regional faves like the fried oyster roll, South Carolinians are the sammie ordering champs.

Texas

Up and at 'em 🌄

Texas has the most orders between 5-8 a.m. You know what they say: the early bird gets the breakfast burrito.

Utah

Big on BBQ 🍖

Who'd have guessed it? The Beehive State throws down the most barbecue at work. Eat your heart out, Texas.
